

5th Call of the NAMA Facility

Clarifications IV

Published on 1 March 2018

Contents

A) Eligible support instruments in NSPs	1
B) Submission of NAMA Support Project Outlines	1
C) Detailed Preparation Phase (DPP).....	2

Question	A) Eligible support instruments in NSPs
CN IV-1	<p>Q: Can we use the NAMA Facility funding for an initial investment that is expected to leverage significant additional investments, but which would happen after the end of the NSP?</p> <p>A: The seed funding of a financial mechanism is eligible for support. As the direct private and public financial leverage effect within the NSP lifetime are part of the NAMA Facility’s ambition criteria for the selection, the mobilisation of public and private finance only after the NSPs lifetime is likely to score significantly lower in the assessment than NSPs with a leverage effect within the lifetime of the NSP. See also FAQ 20.</p>

Question	B) Submission of NAMA Support Project Outlines
CN IV-2	<p>Q: Section 4 of the Outline (Expected Budget and Financing Structure) requests an estimate of total costs and financing contributions from a variety of sources. Please confirm that these values are estimates at this point and will be refined during the DPP?</p> <p>A: Yes, this is correct, during the DPP these values are refined. Please also take note of FAQ 21.</p>
CN IV-3	<p>Q: Does the NAMA Facility require a “presentation letter” for the submission of an Outline and if not, who can physically submit the Outline to contact@nama-facility.org ?</p> <p>A: The NAMA Facility does not require a “presentation letter” for the submission of the Outline, but requires endorsement letters from the national ministries (see also FAQ 17 and 18). As per section 5.1.2 of the GID (LINK), the Outline should be submitted by a duly authorised person either from a national ministry or the legal entity proposed as Applicant.</p>
CN IV-4	<p>Q: Can we define multiple target groups in section 2.3 of the Outline?</p> <p>A: Yes, this is possible, as several target groups might be addressed by the NAMA Support Project.</p>

CN IV-5 Q: There is little room in the template cells for each activity. Are you looking just for short titles (e.g., Finance Mechanism), or do you also want brief descriptions of sub-activities?

A: A brief description of (sub-) activities is recommended. The Outline will be assessed based on the information provided by the applicant. Please note that “finance mechanism” as proposed on the question is not considered an activity.

Question C) Detailed Preparation Phase (DPP)

CN IV-6 Q: Is it correct that the Applicant/Applicant Support Partner needs to provide a cost estimate for the DPP in Annex 4?

A: Yes, this is correct.

CN IV-7 Q: What type of contract mechanism will be used for the DPP and the Implementation Phase?

A: After Donors of the NAMA Facility approve funding support for the DPP and, at a later stage, potentially for the implementation of a NSP, the Applicant/Applicant Support Partner of the NSP (and later the NSO) will be offered a grant agreement by the NFGA. See also section 3 in the GID. ([LINK](#))

CN IV-8 Q: When is the funding to carry out the DPP made available? Is it during the elaboration period or is it considered a reimbursement once the project implementation is approved?

A: The funding for the DPP is made available during the elaboration period and is based on the approved DPP concept.

We are looking forward to receiving your submission of Outlines!

Please send the completed NAMA Support Project Outlines via e-mail to the Technical Support Unit (TSU) of the NAMA Facility contact@nama-facility.org by 15 March 2018, 3 pm CEST/GMT+2.

All documents submitted to the NAMA Facility should be in English.
